

## After School Tutoring Program

*At The Bridge Academy, our goal is to help each student achieve his or her potential. To help meet this goal, we offer after-school tutoring.*

*The program includes tutoring and enrichment services for elementary, middle school, and high school students.*

*Tutors utilize the same successful instructional methods that are used at our school. It is appropriate for typical learners as well as students with dyslexia, auditory processing, and those experiencing issues with attention, memory, and/or executive function.*

*Student Focused and Results Driven*

*"Tutoring has been very helpful for me because it is done around my specific needs. I am being taught how to learn, not just memorize."*

Bridge Academy Student

# One student at a time – One lesson at a time!

## The advantages of The Bridge Academy Tutoring Program include:

### Personalized Program

Tutors will conduct educational assessments throughout the tutoring schedule. With careful review and analysis of these assessments, the tutor will develop goals and objectives for your child. These goals and objectives provide a highly personal program addressing the strengths and needs of your child. There is no additional fee for any assessments.

### Experienced Teachers

Tutors are staffed members of The Bridge Academy and have demonstrated successful teaching methods. The focus of the Bridge Academy and our tutoring program is on the student and our goal is both to remediate student weaknesses and encourage independent learning strategies. Multi-sensory teaching techniques are employed to address individual learning styles while a supportive and nurturing environment fosters each student's academic and social growth.

### Individualized, One-on-One Instruction

Individualized instruction allows our tutors to work at your child's pace, to identify areas that need reinforcement, and to customize an educational program around your child's individual needs. One-to-One tutoring also provides a consistent learning environment that is less susceptible to interference.

**For more information call 609-844-0770.**

### Development of Critical Thinking Skills

Instruction is designed around each student's individual needs, not a workbook or pre-packaged program. Each session will be one student and one teacher. Ongoing assessment will guide the tutor's instruction.

### Development of Critical Thinking Skills

In addition to teaching specific subject skills, our tutors will help your child develop strategies for better problem solving skills for the future. Our tutors will help your child develop their critical thinking skills so they can become better independent learners.

### Parent Communication

Keeping you informed of your child's progress is important. Tutors are available to inform or respond to your questions through e-mail or in-conference at the conclusion of each tutoring session.

### Flexible Schedule

Sessions can be one or two times per week. Schedule is established with your designated tutor. All Tutoring is at The Bridge Academy school at 1958 B, Lawrenceville Road in Lawrenceville, NJ. Sessions can be rescheduled only once with notice by 10:00 am the day of the scheduled meeting.

### Subjects Offered Include

Reading • Writing • Math • ACT Prep  
Organization and Study Strategies

The cost of the Tutoring Program includes all materials, assessments, and is for a minimum of 10 classes. Parents may extend the number of tutoring sessions by 10 session increments.
